Tips You Can Use

Changes to the Cancer Program Categories may impact your registry!

New Categories of CoC Cancer Programs went into effect January 1, 2012 (for a description

Dear Nicki,

Welcome to Fall! With the implementation of the new 2012 CoC Cancer Program Standards and Categories, we will be sharing helpful hints and suggestions throughout the next year. Included in our Newsletter today is a Reminder about the upcoming due date for Eligibility Requirements and a case study for the new NCDB Completeness Report.

Reminder that Eligibility Requirements for CoC Programs are due on September 30th! Program activity needs to be recorded and documents uploaded. Failure to complete by the deadline can possibly result in suspension of your CoC Accreditation and delay scheduling of your upcoming survey.

Completion of Eligibility Requirements will require a significant amount of time to collect all the documentation required for upload. For additional details read our summary, [Eligibility Deadline Approaching](#).

New this year from NCDB is a Completeness Report that helps assess the quality of your abstracts by pinpointing your results exceeding, or not meeting, established benchmarks. This allows you to analyze your data, identify issues and implement resolutions. View a case study in using this report at [NCDB Completeness Report](#).

To guide you in complying with the CoC Cancer Program Standards this year, download the [Standards Checklist](#) which indicates the Specification required for each Standard and allows for entry of Status, Actions Needed and

of requirements,

Our mission is to make your registry standout!

Visit the [Resources](#) page on our website,
ProRegistryServices.com, for articles, presentations
and prior newsletters.

**Call for a complimentary consultation. Learn more
about our service portfolio at ProRegistryServices.com**

PRS is fortunate to have one of the original 29 CoC trained consultants in 2000. Ms. Jones has consulted on over 40 programs, has 25+ years of Cancer Program experience, and the most up-to-date information and knowledge of the Standards.

We have helped develop registrar training programs and a NAACCR training webinar on Policies and Procedures. To view [click here](#).

We also provide ongoing consultations on process improvements and operational efficiencies that assist hospital executives in maximizing their cancer programs and registry operations.
